Among those whose attention has been attracted by this magnanimous offer is the Rev. J. S. B. Crawford of Waynsville, N. C., a very prominent divine, whose own vitality was seriously impaired. Being sick of paying money to quacks and charlatans who took his Crawford had the prescription made up and took it regularly, as he was directed. With this result, he was perfectly cured, and after several years of enjoyment of his newly given powers, made the statement publicly that every man in need of help should do likewise.

There are not many ministers who would be willing to publicly indorse and recommend a cure of this kind, with the statement that they themselves have been cured by it, but the Rev. Craw-ford has in him a great deal of true gratitude and love of mankind. This is shown in a recent letter in which he says that he makes public acknowledgment "in order that others may receive the same happy results."

BEARISH SENTIMENT GROWS AND PRICES ARE SHAKY.

ALL CEREALS CLOSE SLIGHT-LY HIGHER AFTER FLURRY. Inspiration for Any Bull Move-

ment Entirely Lacking at Early Chicago Session. Chicago, Feb. 1.-Grains were threatened with losses all round to-day as the result of a growing bearish sentiment. Prices did

dip for a time, but there was a quick change in sentiment following the Southwestern markets, and small gains were made. May wheat closed be up. May corn \$4c higher and May coats a shade higher. Provisions closed a shade to rige lower.

Wheat.

Wheat began the day steady, but dropped quickly. Cables were steady, but Australian shipments were excessive—1.672,000 bu., as compared with only 272,000 bu, the corresponding week last year. There were numerous selling orders early, though the general trade was light in volume. The increase of lise a bu, in ocean freights on grain helped the foreign markets, but hurt prices here. Inspiration for any built turn in the market seemed to be lacking in any of the news at hand. May opened a shade higher to a shade lower at 17%c to 77%c and sold off to 17%c 17%c. At these prices offerings became scarce.

There was a revival of buillsh sentiment in the Southwestern markets, and shorts

There was a revival of builtsh sentiment in the Southwestern markets, and shorts began covering liberally. Of late bears have been hedging to some degree, and seem to prefer covering at small breaks, rather than to continue going further short. There was an improvement reported in the cash situation, the scaboard foreign demand was picking up and sellers turned buyers. May reacted quickly and later fluctuated narrowly with an upward tendency. May closed 1½ higher, firm, at 750,75½ c. Local receipts were twenty-three cars, four of contract grade; Minneapolis and Duluth reported 2% cars, making a total for the three points of 23 cars, against 43 last week. Last year this day was a holiday. Primary receipts were 42,000 bu. Scaboard clearances in wheat and flour equaled 322,000 bu.

ances in wheat and flour equaled 322,000 bu. Corm.

Corn opened firm on steady cables, which reflected nothing of the weakness of this market yesterday. Trade was light, and shortly after the start prices sagged off on general selling. The pit crowd, however, quickly began to cover, and on the increased demand the feeling turned firm. Kansas City reported stocks there less than a million bushels, and stated that 32 cars more were shipped last week than were received. May sold from a low point of 624,5624c to a firm close, %c up at 635c. Receipts were 73 cars.

There was a very small trade in oats, prices fluctuating within 1/c. Interest in the pit seemed waning, though there was an inclination to sell the long stuff accumulated during the recent rally. This selling early depressed prices, but later this pit followed other grains. May closed steady, a shade higher at 44%444/c. Receipts were 52 cars.

Provisions were dull, save for some fair business in pork. The hog market was steady, and brought a steady opening. Pork selling depressed prices slightly, but reviving grain strength helped to barely ease the close.
